A UNIQUE RECORD

Home testimony for Doan's Kidney Pills, published in every locality, is of itself convincing evidence of merit. Confirmed testimony forms still stronger evidence. Years ago, a citizen of Norway gratefully acknowledged the benefit derived from Doan's Kidney Pills. The statement is now confirmed—the proof more convincing. Cases of this kind are plentiful in the work of Doan's Kidney Pills—the record is unique.

S. C. Foster, barber, Main street, Norway says: "I have used Doan's Kidney Pills and I am only too glad to say to others I think they are the best of kidney medicines. Several years ago I had kidney trouble. I got Doan's Kidney Pills at F. P. Stone's Drug Store and I was soon feeling all right again. I remained so for a long time, but later caught cold and my kidneys gave me trouble. I again took Doan's and they gave me relief." (Statement given July 24, 1908).

On June 6, 1916, Mr. Foster added: "I still think as well of Doan's Kidney Pills today as when I first endorsed them. I use them occasionally, as I feel in need of them and I am always promptly benefited."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Foster had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 33-34

A Real Farm for a Real Man
About 200 acres with no waste land; 120 acres in fields and remainder in pasture and wood; cut 110 tons of hay and 27 acres seeded this year. The fields are large and smooth. One field is 300 rods long and another 200—just the farm for a tractor. There is a large orchard and an excellent set of buildings very pleasantly situated and in good repair. The house is painted white, with green blinds and three lighted windows; it has 11 rooms, hardwood floor and hard and soft water in sink; also a furnace. Barn 40x80; stable 30x40, both disbarred and with basements; storeroom 20x20 and hen house and granary. This farm is 8 miles from station, corn fact, creamery, potato house, and large village and 6 miles from one of the most thriving cities in Maine. It cannot be beat for a dairy farm. The following machinery is included: Sulky plow, hand plow, spring tooth harrow, disk harrow, Robins' potato planter, lime sower, grain drill, steel roller, mowers, 2 rakes, side delivery rake, hay loader, farm wagon and grain binder. All this machinery is nearly new; 15 head of cattle and 2 young horses are also included with the place.

Pianos and Player Pianos

Never in the World's History has music been so acceptable as it has been in the Army and Navy. On the battlefield; in the front line trenches, in the various organizations' huts; in the hospitals; inspiring the charge, making possible the forced march, MUSIC has been indispensable. On this side of the water, Music's service has been even more vital if less spectacular. It united a nation made of many nationalities. It inspired patriotism when argument failed. It aroused a determination to accomplish its object. It was invaluable in raising the money for Liberty Loans and War Work campaigns. It generated the spirit of Sacrifice it gave us Courage; it relieved Anxiety; it provided Diversion. The evidence is plentiful that MUSIC has materially helped to win the War. MUSIC is indispensable in celebrating OUR GLORIOUS VICTORY as it proved to be in WINNING IT. The wonder of MUSIC lies in the fact that it gives a Fuller and Deeper Expression to every human emotion and Harmonizes with Every Occasion. Send for Catalogues and Prices.

USE THE INTELLIGENCE COLUMN WHEN YOU WANT TO BUY

By all ordinary rules we ought to be satisfied with our classified ad department. There are published therein from week to week more ads many times over, than in other similarly situated papers. We are of course, very much pleased with this, but what gets us is the fact that so large a proportion of these ads are from people who want to sell, and that so few make use of the column when they want to buy. Over and over again, it comes to our attention that a man starts out to buy a pair of horses and will travel a week, at an expense, (time and transportation considered) of not less than thirty-five dollars.

Why under the heavens he should persist in doing this thing when for twenty-five cents or fifty cents, he could put in an ad in this paper that would locate from five to fifteen pairs, is more than we can understand. The same thing is true of those who wish to buy a farm, hire a house, or secure help of any kind. Of course, the number of replies would vary, but it is absolutely dead certain that more information can be obtained for fifty cents in our Intelligence column than for twenty-five dollars in otherwise hunting for them. To popularize the use of this column, for those who want to buy we will accept, for any one or all of the next three issues, ads of this kind from our subscribers absolutely free. Mind you, this doesn't apply to anything you want to sell, but to anything you want to buy or hire, help wanted, or information wanted. And this reminds us that this column can be made exceedingly useful in the matter of information. Perhaps you want to communicate with some person whose address you have lost. Twenty-five cents invested in our Intelligence Column will bring you his name and address from half a dozen different sources. Send in your "Want to Buy" ad to Advertiser, Norway, Maine.

Somewhere has been quoted some of the orphic utterances of the Father of his Country, and one of 'em goes thusly: "It is not the lowest priced goods that are always the cheapest." Happy old George! If he had lived in these piping times of armistice peace he'd have lived to learn that there aren't any such things as low priced goods any more, and that the only thing about goods that's ever cheap nowadays is the goods.

Leaves The Toe as Smooth as the Palm of Your Hand.

The corn never grew that "Gets-It" will not get it. Never irritates the flesh, never makes your toe sore. Just two drops of "Gets-It," and presto! It's the sure way—the way that never fails. It is tried and true, and it's the only safe way.

It's the sure way—the way that never fails. It is tried and true, and it's the only safe way. "Gets-It" makes cutting and digging at a corn and fussing with bandages, salves or anything else entirely unnecessary.

Lecture Thursday Evening

Professor H. W. Brown of Colby College, gave a lecture, "Our Unprized Friends" Thursday evening at the Universalist Church under the auspices of the West Paris High School.

Prof. Brown needed no introduction for he has been here before and the house was well filled with expectant listeners, and their expectations were fully anticipated.

Mr. Brown came on the evening train and that was a little late so he did not begin until about quarter of nine and he kept his audience in rapt attention for about an hour and a half. No one realized the lateness of the hour until they consulted their time pieces when he was through. Long with his instructive lessons, about the little repulsive reptiles and insects and how they are our friends, he remembered.

Rev. E. S. Ufford author of the familiar song, "Throw Out the Life Line," came here on Saturday to speak under the auspices of the W. C. T. U. Sunday evening.

The Universalist Church, but the storm prevented a very large gathering. He stayed over until Tuesday morning, so word was given out for another meeting for Monday evening at the Methodist Church when there were more present to hear his talk on "Man Overboard" illustrated with a lot of interesting and signals used in Life Saving stations that he had gathered on his trip around the world.

During his lecture he gave his own composition and one whistling solo. Upon request he sang "Throw Out the Life Line." A young people's chorus sang "Sound the Jubilee." A jubilee drive for the reconstruction in the prohibition work and Mr. Ufford is employed by the State W. C. T. U. to help the various local unions to raise their apportionment.

Charles Millett of Mechanic Falls is working for Charles Curtis.

Dr. F. E. Wheeler and wife went to Oakland Friday, called there on account of his father's illness. Since he went, his father has died. They returned home the middle of the week.

An address will be given Saturday afternoon in open church meeting by Rufus Webb of Palmouth, a prominent railroad man. The special all day meeting will begin at ten o'clock. There are five candidates waiting for their 3rd and 4th degrees.

Agnes Gray is reported as doing well after her operation in Dr. King's hospital in Portland.

Mrs. Martha Dunham's brother, Geo. Dunham, is very ill.

Benjamin Swift of Sumner has been visiting Mildred Davis.

Mrs. Emma Berry recently visited her daughter, Mrs. E. B. Jackson at Norway.

Mrs. Almada Richardson and Mrs. Oscar Putnam recently visited her parents, Mr. and Mrs. Daniel Churchill.

We understand I. O. Swift has sold his farm, stock and farming tools to a Finn who will take possession soon.

G. West, who sold his farm last fall expects to move to South Paris early in May.

Walter Littlehale has hired out to work for A. D. Andrews for the season, beginning the first of April.

With an income of a hundred dollars a day, which is the alimony paid her by Howard Gould from whom she has a legal separation, but not a divorce, Mrs. Katharine Clemons Gould has been elected a member of the United States Chamber of Commerce. Why not? Business ability like hers should be recognized. A poor girl she is and a rich man. She does not have to pay any income tax on her one hundred dollars a day. Should Howard Gould die before she does she will receive a third of his possession. Her property interests are said to be worth ten million dollars. She should be president of the United States Chamber of Commerce.

This coming Spring will be an excellent time to put into practice some of the amateur gardening lessons you learned through last spring's mistakes.

Any man who does you an ill turn will never forgive you for it.

LOCAL PICKUPS

"A woman, a dog, a walnut tree, the more you beat them, the better they be."

This is real house-cleaning Spring poetry, where the carpets are beaten in the back yard.

My principal talk will be on advertising this week and if not interested, skip it.

I do, however, wish I could induce Norway school teachers to give the legal names of their pupils when they appear in print in our paper.

Maybe it is hopeless. I take courage when I think that it took six years to get the town to accept of a continuous board of selectmen and the teachers may come to my way of thinking later one.

Let us hope so.

School teachers of Paris are somewhat similarly afflicted. Forty-four of the children attending the "Brick Schoolhouse" have no "middle" name, or else the Democrat isn't telling facts. This should be remedied and probably will be now that the women have the right to vote for the president of the United States.

And we so hope.

We want the home news and will accept it in most any form provided it's free from malice and slander. Sign your name and your postoffice address. We'll not print your name without your permission, but local news or home news and new subscribers are wanted as well as for you to try and find out if our readers won't furnish what you want to buy if you will only let them know about it.

L. P. Evans, Dover Observer, says: "In his argument in Congress for the repeal of the Daylight-Saving Law, Representative King of Illinois presented a pathetic picture of struggling farmers forced to keep two clocks going, one for God's time and one for Wilson's."

This recalls the days when Standard time was established and how its opponents spoke of God's time and Payson Tucker's. Mr. Tucker being general manager of the Maine Central railroad. Standard time worked out well and the Daylight-Saving law did last year, on general principles at least.

Boj Seavey: "Take my ad out, I've got two girls and they are working and not happy. That is I'd be, if I could find a plain, unpretentious, every-day woman cook. Good wages and permanent job goes for the right kind of a woman cook; 'spose there are any such who read your paper? If so, I'd like to make their acquaintance."

Such is life! You are never satisfied only for a few minutes at a time even if your wants get a quick response from our readers.

"I want a second-hand, good looking baby carriage with crib and mattress. Will pay a fair price. If you have one, let me know." This I heard the other day and when I suggested using the Intelligence Column, the lady nearly fainted and said nobody read that column, at least she never did. Was it a fact or didn't she want to risk the half dollar or had she heard about the Intelligence Column before? No, she is her opportunity. It can be done without publicity by referring those who have the articles for sale to apply at this office. Try it.

A. A. Smith, Lakeport, N. H., wants to buy 2 barrels of seed potatoes—white, medium, early. Can't some of our readers supply him? Write him of what you have, state price, and tell him how they are. Mr. Smith is responsible and you probably have what he wants. Write him. His ad appeared in our Intelligence Column three times. Maybe you didn't see it. Put Route 6 on letter.

Reed Plantation tax is 5 per cent, and 3 mills on a dollar and 1/2 in Arrostook County, too. Just think of it, \$53.00 on a thousand!

George F. Hill, South Waterford: "I want to pay for my 'ad.' It's been in your paper two times and I told the milk cow to George Hilton and the oxen went to Mr. Knight of Westbrook. Mr. Hilton in Harrison told Mr. Knight that I was advertising to sell cattle and he came and took them right off." The ad cost Mr. Hill 50 cents.

Even Phineas Jaques admired the spread and quilts displayed on Mrs. W. A. Bicknell's piazza last Tuesday and said, "Such beautiful creations should never be stored in the back yard where the public cannot see them."

Lou Cushman: "Buy your coal early and get your summer bonnets before Easter. Be wise and avoid the rush."

Free stuff—garden seeds excepted—is seldom found in this paper, but during the drive to the League of Nations, we concluded to give some advertising space to help the next three issues. If you want to buy anything from Nicholas you'll do the rest. See notice on page 3. Read every item in the Intelligence Column.

W. L. Libby: "The demand for seed wheat in pit lots is phenomenal this spring. Newly equalled before since I've worked for the Cummings firm. Why, to so many different people, for planting purposes I suppose."

Isn't wheat used in home brewing?

If you want to "buy" now is the golden opportunity to get an ad in that column without expense.

F. W. Searborn: "I wanted a girl to learn to run a linotype. Put an ad in the Intelligence Column and had 3 applicants right off. Only one insertion. Isn't always that way as I've been trying to sell a 3 h. p. horizontal engine for 15 years and as yet have been unable to find a customer."

People do read that column. It is looked over pretty carefully each week and hog-yokes and canines are in no great demand just now. May come in fashion later on.

Do you want to buy? If so, what? Let your readers know it will cost you nothing. Write the office or speak to our reporters. We will put your ad in the Intelligence Column free. For particulars see page 3. Read it and act promptly. This offer is open for three weeks.

The Treasury Department of The United States of America announces

The "Victory" Liberty Loan

The crowning effort to finance the war is at hand. We have been told that the people will not patriotically take another Liberty Loan.

We do not believe it!

Patriotism is not a garment which is cast aside after eighteen months, not to be worn again!

Patriotism of the right kind is deeper seated than ever. Each one has sacrificed upon the Altar of Liberty something which was dear.

These sacrifices add fervor to our love of freedom for ourselves, and to our desire to give this greatest of blessings to all the world.

Peace must be financed as well as war. A substantial, durable peace requires the presence of our army and navy in adequate strength in strategic positions. But a small part of either can be safely demobilized. They must be maintained, victualled and clothed for many months after peace is an actuality.

The Fourth Liberty Loan paid our bills to December 15, 1918.

Expenses have been quite as great since the Armistice as during actual hostilities.

Let us pay the bills. It was our war and we won it.

We will rise to the demand and take our share of the "Victorious Fifth."

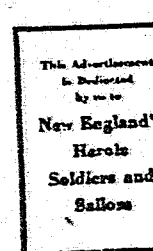

Come on! We'll finish the job!

This is an important time here now from
week to week since the New Goods
Began to Arrive

Every Day an Opening Day

We have brought them forward and had them attractively displayed in the different departments thus fulfilling our plans to never hold back new goods for any fixed time, but to have

From many years of experience we have come to know that the majority of women go out shopping when it pleases them and when it is most convenient, such being the case, why should we concentrate all of our efforts to looking well and be on our best behavior one week and less so on others? Is it not every one who favors us with their presence entitled to the best that the house can give every day? Like the moving pictures always showing the best continually that all may be served alike.

The unusual and out of the ordinary Silks, Dress Goods, Wash Goods and Ready to wear apparel

are in great prominence in these early showings. At the same time we never neglect the always wanted staple materials that we carry in most liberal assortment and that are of the most reliable kinds.

In this Reconstruction Period

The downward revision of prices has been one we have given great consideration to. Where lower prices could be made we have not hesitated to make them.

More New Goods
Received this Week

New Suits, Coats, Capes, Dolmans, Waists, Neckwear, Vestees, muslin and knit Underwear, Gloves, Hosiery and the little fixings.

Each day sees much new and distinctive up-to-date merchandise added to our extensive spring display and a most cordial invitation is extended to come and look to your heart's desire. You will not be urged to buy.

Local School Union Report
Supt. True C. Morrill of the Norway-Waterford-Oxford School Union has issued a combined report of his last year's work. It contains 56 pages and is embellished with a specially drawn map showing the three towns with roads. It was taken from the town reports and shown the methods of teaching and tests applied in the School Union.

Mrs. W. H. Young and son Richard of Bethel were guests of her grandmother, Mrs. A. J. Nevers, the past week.

Mrs. Sarah Chase of Biddeford has been spending a week with her sister, Mrs. Odell C. Rich.

N. A. Gilmore of Stark has been spending a week with his nephew, Paul Boynton, who is recovering from pneumonia.

Mrs. Elizabeth Andrews and daughter Nellie, who have been visiting at Della Nevers' during the winter, have returned to their home on Maine street.

Mrs. Eugene E. Andrews and son Roland will have rooms with them until their cottage at the lake is ready for occupancy.

Imogene Hunt has been spending a few days' vacation from Farmington Normal School, with Mrs. L. Hall Trufant.

Mrs. Virgil Littlefield of East Stone, who is attending high school and boarding at George L. Curtis' home, has recently visited her daughter, Katharine, who is attending high school and boarding at George L. Curtis' home.

Mr. and Mrs. Milard Lyseth spent the week in Lewiston and Auburn. Their son, Harrison, who is attending Bowdoin College, was their guest over the week end.

The meeting in Woodman Hall for the purpose of assembling a minstrel show was well attended, and a preliminary move made for a demonstration of local talent. Many old-timers have decided to appear once again, and with new talent recently brought to light, a regulation circle and second part can materialize.

Roger Sloane of Auburn was in town Saturday and Sunday. He has employment in a shoe factory as inspector and accountant.

Jack Smith observed a large flock of wild geese flying northward late last week. It is estimated several hundred birds were in the flock. Bud Dunham noticed two smaller outposts on another day passing over Lake Penesseewassee toward the north.

Mr. and Mrs. Donald B. Partridge entertained Priv. Maynard Douglass, formerly principal of the Castine grammar school, at home Thursday night. Private Douglass enlisted in the Heavy Artillery, March 1918. After passing a rigid examination he was transferred to the Signal Corps for scout and observation work before the first line trenches. Later he was made bugler in the 71st Regiment, in which he was recently discharged. He passed through many thrilling adventures while performing dangerous work near No-man's land, and was spared while companions became the target for German snipers.

EXPLANATION OF BUSINESS POLICY

It is plainly impossible for a Country Weekly, getting out a paper only once in seven days, to publish all the news, local, state, national and world-wide. Being compelled to make a choice, we long ago decided to give our attention to local matters. For this policy we endeavor to publish so far as possible, everything obtainable about Oxford County people and communities. And so, if the news is about something that happened to a citizen of this county, or something which was done or caused by him; or if it concerns in a similar way someone who formerly lived here; or if it is an event which happened or is going to happen in some Oxford County community, we are always glad to have it submitted for publication.

This policy is very generally approved by our readers; but now and then, some one wonders why the sinking of the Lusitania, the signing of the armistice, the death of Roosevelt and other events of world-wide importance, pass unnoticed so far as our columns are concerned.

We can only say that we were to handle news of that kind we should have to omit items of a purely local character; and by every test, and by the best judgment of our readers, we are quite sure that, before our paper reaches you, you would have heard of events like the Lusitania disaster and the death of Roosevelt from other sources; and in view of the fact that lectures, essays and discussions fill to overflowing, the monthly and weekly magazines, and, more or less the daily papers, we are quite sure you will not wish space in our paper devoted to them to the exclusion of your favorite local column.

As to manuscripts, essays, literary productions, etc., produced by Oxford County people, it is our policy to publish them if they possess some local interest. This, of course, if they are read or delivered as a part of a program of any meeting held in Oxford County.

We can sometimes use them, but if we have a choice between them and local news items, it is always the local news that gets the preference. The reason already referred to. It should be understood the dailies tri-weeklies and monthlies can excel us in the preparation and publication of world, national and state news, also in the discussion of scientific subjects.

No paper, however, of any description can equal us in the publication of purely local news matter. We prefer to do the job that we can do best and this is another reason why the local news gets the preference in our columns.

We ought to mention here, communications and discussions on purely local questions. If they are exclusively local, and if they would interest any considerable number of citizens in Oxford County, we will publish them.

While this material may not be so widely read or of as much interest as the local news, we consider it distinctly helpful in a local way, and regard it as our duty to give it space.

And now, if you are going on a journey or have just returned; if you expect a guest, or if you have just departed from your home or some one has just departed from your home; if you are planning to change your business, occupation, or residence; if there is to be a wedding in the family; if a daughter or other relative is going away to school; if you are engaged in some public meeting or entertainment; if you know of any change in the plan of some church or society; or if you know of these things which are happening, have happened, or are about to happen to some person, or concern any Oxford County community, please send it to us for publication.

Also, if there are things to be criticized or commended in the municipal affairs of your town or of this county, let us have your opinion or comment. In these matters be sure to grasp the point that it must be something local; whether or not there should be a new bridge in a nearby locality; whether or not the highway funds are being properly expended; whether or not your schools are being properly maintained; all these and similar subjects of local interest we should be pleased to publish.

On the other hand, if you feel that President Wilson should not have gone to Europe; or that a Maine Governor is right or wrong in policy; or that your Congressman has voted or has not voted as he should; or that the Maine Canal is too high or too low; or that the mulching system is or is not better than sod or clean cultivation for the Maine orchard; or that there should be a time limit on general fishing in the Atlantic waters, don't expect us to publish anything you may see fit to write about it.

In the rarest of instances we might do so, but we never invite, and can seldom use material of this kind.

We greatly value friendly comment; and no advice, written, or otherwise will be more commended our respect and gratitude than that which comes from any Oxford County citizen who can point out some way in which to improve the usefulness of the Advertiser for Oxford County people.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured By Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."

Mrs. LIZZIE COURTNEY, 108 8th Ave., West Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, headache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham, Medicine Co., Lynn, Mass. The result of its long experience is at your service.

HEYWOOD CLUB SONG
Come all good Heywood Club members, let us have a song—
Let it be a merry one to while the hours along.
Let it be a worthy one to help our hearts keep strictly to the "Heywood."

(Chorus)
Hurrah! Hurrah! Good Farmers' wives are we,
Hurrah! Hurrah! We're busy as can be.
We bake and brew, have a good time too,
As we work at what our hands find to do.
Let us sing of Spring's sweet message, "Come the born anew,"
Sing it with our hearts and voices, let it ring out true!

Sing with gladness, banish sadness, "Come one looks to you."
You who belong to the "Heywood."
Come and bring your work along, whatever it is.
It may be darning stockings, perhaps some clothes to mend.
There's sure to be a program to please this happy band,
We who belong to the "Heywood."

NORTH LOVELL

One of Perley McKen's hens laid an
egg that measured 8 1/4 by 7 3/4 inches. A
good sized egg, that's quite a meal for

Frank were at their home here, Saturday
and Sunday.

also Lillian Bissett was a welcome guest
Friday night and a part of the day, Sat-
urday.

Thursday, to visit his sister, Mrs. Mary
Pampliley and other relatives. He re-

few weeks at home, has returned to Port-

the Farringtons.

friends here during his vacation. Curtis
Kimball and Ada Andrews are at home
for the week's vacation. School will be-
gin again next Monday at the academy at
Fryeburg and all the town schools in
Lovell that are not already in session.

DENMARK

The high school closed with one week's
vacation. The school gave a drama Wed-
nesday evening with a good attendance.

After the Drama, a dance followed. The
proceeds were fifty dollars, after the bills
were paid. Music by Betty's orchestra.

The terrible rain Friday left the roads
in terrible condition, washing out many
water courses.

Mrs. John Colby, who has been ill, is
much improved.

Ray Dresser of Harrison, who has been
to Camp Upton, has returned and is in
town, a guest of Bert Dresser and family.

News came in town last week from
Jesse Kenniston, who is in France, that
he is much improved in health and is able
to go to work again. He expects to start
home somewhere the first of May.

Mrs. Annie Barker, who has been con-
fined to the house for a number of weeks,
is gaining slowly and is able to get out
around in pleasant weather.

Reuben Blake of East Brownfield is
spending a few days with his grandmother
Mrs. George Wentworth.

Mrs. Addie Alexander has been laid up
with a lame ankle.

garage, A. S. Colby is working for him.

PURE TONIC VALUE

In Peptiron, to the Last Particle of the Medicine.

The new and real iron tonic, Peptiron, is prepared in the convenient form of chocolate-coated pills, easy to take, easy to carry about with you; no water, no alcohol, no opiate. Peptiron is the essence of economy, the acme of efficiency. It is readily assimilated, acts promptly and powerfully upon the blood and nerves, corrects all run-down conditions, creates an appetite, gives stomach comfort and healthful digestion. It wards off impending illness, bridges over the danger spots, and increases power of resisting disease.

Do not put off treatment in these times so perilous to health, but get Peptiron and begin to take it today, two after each meal.

You'll not regret being particular to get Peptiron, and no other. Like many others, you will be surprised at its promptness in building you up.

It is hard to see how there can be any great fall in prices until Europe gets back to producing food and manufacturing again. This is a matter of at least a few months.
